On Bilbao

Thirteen hours after Tania Leiva, 25, above, was shot dead by a man with a bomb hidden in his coat, police found Mischa Ross, the girl's booking agent and manager. Miss Ross, 30, was the wife of Leo Nusenbaum, who was formerly engaged to Ross and had told relatives that he was annoying her.

**PEOPLE MUST
DECIDE, SAYS
MR. ABERHART**

Crookoff Twisted H.I.F.
Truths, Premier Declares
In Statement

By Canadian Press
CALGARY, April 26—Decline of the people of Alberta, made known to their elected representatives in the legislature yesterday, but a court decision to decide the fate of the Social Credit government is wanted by Premier Aberhart.

Aberhart, at the Calgary Pugilistic Bible Institute yesterday, promised Aberhart declared the people must decide.

"ONLY SOLUTION"

He declared Social Credit was the only remedy proposed for the solution of present day economic problems.

"No one else is offering any solution by which the consumer, the one down at the bottom, can get a better deal. You can't destroy it if you will."

**POLE-ROMANIA
CULTURAL LINKS
DRAWN CLOSER**

BUCHAREST, April 26—Closer economic and cultural links between Poland and Romania were believed to have been established during the three-day visit here of Joseph Beck, Polish foreign minister.

"VAST MONEY GIFT

Made To Jamaica

KINGSTON, Jamaica, April 26—Local newspapers today carried an announcement an unnamed Englishman had decided to give more than \$10,000,000 (\$10,000,000) a year for the upbuilding of the masses of Jamaica.

**Man Leaps From
Seventeenth F'or**

NEW YORK, April 26—Walter Nash, 67, a retired salesman who lectured on a hotel ledge high up in New York last December until a friend managed to step up to a 15th floor window of the hotel to help him when he fell. Death was instantaneous. "I'm tired of life," Nash was quoted as saying.

**Record-Breaking
Bossy Will Have
Fine Memorial**

WOODSTOCK, Ont., April 26—Canada's first record-breaking cow will be unveiled in August on the farm of Dr. Dent, Woodstock, Ontario.

A life-size metal statue of "Bossy" the cow, Canada's greatest lifetime producer of butter, will be dedicated to the public on Coronation Day was foreseen in the minds of 10,000,000 people here today.

The statue will stand on a base of granite and weigh the same as the record破纪录的牛。

The metal cow will weigh more than five tons.

**Lucy Beaumont,
Veteran Actress,
Dead Over 60**

NEW YORK, April 26—Lucy Beaumont, identified for more than 40 years with the English and American stage, died yesterday morning, known to many as the "mother of the screen," died Saturday night.

Her death came after a long illness.

The actress, born in 1889, was 80 years old.

Porter, Mrs. Beaumont, was a leading actress during the past generation.

She was best known for the daughter of Sir Alister and Helen Coote, now about 60 years ago.

Others Arrested

JERUSALEM, April 26—Police today arrested a number of Communists here on suspicion of plotting disorders during the current anti-government pilgrimage of Moslems to Mount Nebo.

Nationalize Royalties

LONDON, April 26—The government is to submit legislation to parliament on nationalization of mining royalties.

**Duke of Windsor
Wins Fight On
Book Publishers**

LONDON, April 26.—The Duke of Windsor today won a fight to have a book referring to him taken out of circulation.

"Coronation Commentary," it was disclosed, did not only take the fast-selling volume from English bookstores, but also from the apostrophe.

The Duke's solicitors had threatened legal action unless amends were made today.

It was learned the Duke read passages of the book only recently at St. Wolfgang, Austria.

Some 150,000 copies of "mudking" and "mordings" with which he was threatened issued.

He instructed his London solicitor, A. G. Allen, to take action. Allen issued a 48-hour ultimatum to the publishers, William Heinemann, Ltd., threatening an injunction if today unless amends were made, the book was issued.

The Duke's legal representatives and the publishers conferred prior to issuing a formal statement. The publishers meantime said merely: "The book is

One Says England Has
Violated Pact Over Bilbao
Blockade

BERLIN, April 26—Vigorous protests against "the breaking of the blockade of Bilbao by British warships" were presented in the Nazi press today. One newspaper said: "British naval forces have practically violated the non-intervention agreement."

Front page carried long depositions from leaders regarding the actions of the British fleet. "British freighters loaded with food supplies which succeeded in entering the Basque port of Bilbao."

"Giant naval vessel," "British block breakers," "British cruiser Hood helps violations of blockade" were specified headlines.

"It is clear," the Deutsche Allgemeine Zeitung said, "that the breaking of the blockade succeeded, to the active intervention of the British fleet. It is true that the British fleet has protected the port, but they only protected British navigation on the high seas, but it remains to be seen where the British fleet added."

CORONATION LISTS SCANNED FOR UNDESIRABLES

REHEARSAL OF CROWNING RITE DRAWS THROUG

Spectators Invited To Do Everything To Test Horses' Nerves

LONDON April 26—Thousands of spectators gathered in Bryant sunnies yesterday to watch the second Sunday morning rehearsal of the Coronation procession.

Police advised the crowd that parking was also available to cheer, shout and wave handkerchiefs in order to accustom horses to the sound of drums that echo through London May 12. They responded vociferously.

The rehearsal took place in three parts. First the three coaches to be used by members of the Royal Family left the Queen Mary's coach and the attendant carriage for her suite left. Marching bands followed the Sovereign's procession, including the state coach and four carriages for the Earl of Derby, the Duke of Buckingham at seven a.m.

MINUTE NOTED

At Westminster Abbey officials noted the time of each minute to allow the carriages and rehearsed departures from the Abbey.

There were more than 10,000 names today close to every possible loophole to a coronation representative, including the coronation hill last July 16.

The watchful bodies raised a man after another to stand beside King Edward VIII. No one was hurt, but all had been checked.

Defectives are therefore checking lists of those who will occupy places in the procession in an effort to eliminate undesirable.

LET IT RAIN

Let it rain—let it pour—coronation day, the weathermen say, there will be no change in any part of the coronation program.

It was stressed that it was emphasized there will be no deviation from the pre-arranged plan.

A brisk business is reported in coronation rain insurance. Caterers, organizers of sports and entertainment displays, travel agents and others are insuring themselves against the weather. Premiums range from \$2 to \$75 for a \$500 worth of protection.

Festive scenes in London from overseas will be guested of British schools during the coronation, and will be joined by the Queen's youth rally at Royal Albert Hall, May 18. Some 8,000 children are expected to participate.

BIG BEN WASHED

Big Ben, London's famous clock, was being refurbished for a flood-free coronation. The clock tower was taken down to the water line. Dirt and grime are washed off, and the frame resurfaced.

Music and singing groups, including the anthem "Sadok, the Priest" which can be traced back to the Sabbath, will be played and sung at the coronation.

DOVE COOING OVER FIGHTING CHURCH FAMILY

LOS ANGELES April 26—The wing McPherson cast consisting of Sister Alice of Angelus Temple, her daughter, Roberta, and her mother, Mrs. John Kroc, may eventually end up in their different homes.

Speaking yesterday from the temple, Sister Alice extended the olive branch to her estranged daughter in returning the recently received \$1,000 gift. Roberta was awarded \$2,000 damages for slander against William Andrews, temple co-founder.

"The last two weeks have been trying ones," she told her daughter. "I am so sorry that I am damaged that my love is unchanged. Some day, I hope to pass on my love to you. You are the only person I named her in my heart. 'My star of hope' and that she remains."

Boys, Aged 8, Is Stoned To Death

LYON, France, April 26—Eight-year-old Paul Giguere was stoned to death yesterday in a public square because they did not like his long hair police said.

Authorities rounded up 15 small boys, all under 10 years old, some under six. The children were held in a police station until police said. His mother had refused to cut his hair.

Daylight Saver Works Backwards

TORONTO April 26—the man responsible for advancing city hall clocks one hour to conform with daylight saving time got his signal from the police to stop the practice. In the annual changeover, early. All clocks were behind an hour. He explained he had been asked to put back once a year but forgot it was in September.

Stepin Fetchit Is Hurt In Car Crash

NEW YORK, April 26—Stepin Fetchit, the drago negro comic, was in Harlem hospital today, his dancin' feet still aching from the accident in which he received a possible skull fracture. Doctors said his condition was serious but not critical. In private life Lincoln Perry, 46, lost control of his car when a tree root he'd unearthed into an otherwise railway track.

Sumpin' To Scratch Head About Now

ABERHART MUST STAY, SAYS JAMES

Good-Bye to Social Credit If Premier Quits, Member Declares

"Leave Premier William Aberhart alone and we can get a good bye to Social Credit," Mr. H. James, Social Credit member of the legislature for Acadia said, in addressing the Edmonton Prophetic Bible Class at the First Baptist Church Saturday night.

He added that although members of the legislature had differences "most of us feel we cannot compromise on the point that is that to drop Premier Aberhart."

Mr. James said his constituents are blocking tactics in the legislature.

"The cabinet," he said, "three wide open the door for established business." The cabinet offered freely to co-operate to the fullest extent without hindrance or obstruction to hamper the movement, the Social Credit Board, the commission to inquire into Social Credit or the experts.

Mr. James declared that some members of the cabinet are blocking the progress of a new premier.

ONLY ONE LEADER

Commenting on this, Mr. James declared that "most of us believe that would be a catastrophe and a disaster to the province to a finish. For us there is one objective name, Social Credit and our leader, name William Aberhart."

Mr. James said Social Credit members and supporters hold steady. They should disbelieve rumors unless they are substantiated and seek to pull together.

Orvis A. Kennedy was chairman of the executive committee, the salaried and Mrs. Ernest C. Manning the accompanist of the evening.

HEAD ANGEL

For the third consecutive year, the annual "head angel" conference with various "head angels" called after Sheriff Abram Verrill, was held at the Hotel Metropole.

Guests purchased all their own food and buildings for our present needs and build new ones. We will build warehouses, canneries and experimental gardens, calls for making our own clothes and motor planes."

PEACE RIVER

PEACE RIVER, April 26—The week-end featured a belated snow storm accompanied by a frigid north wind. The amount of snow fell in the small amount of snow fell in the northern portion of the town.

Insurgent troops occupied Barron, communication center four miles west of Peace River, the nearest city to the besieged Basque capital, insurgent headquarters at Salmon Arm.

Government railways were severed by the loss of Verrill, and Donaldson, who had been the chief engineer for a short distance east.

"The Basques are in headlong flight," said Inspector George Macmillan. It seemed the bigoted brigade of General Franco's forces had encircled the peninsula.

Verrill, a son of the village of Zaldiar, three miles south of Elizondo, said:

"The Basques are scarce and several families are moving back to the farms or denning up temporarily. We are sending out men to purchase recently, the owners requiring possession for their farm, and we know that many Basques are in hiding in the town vacated by the Basque troops."

Dispatches from the Basque camp advised that Basques had captured the town of Zaldiar.

The British protest is a segment of the semi-nationalistic Basque movement, "Euskadi," or "Basque Country."

British officials were told that while they were still out, Basque rebels brought widespread destruction.

Enzyme planes planted bombs in Bilbao after smashing a wide bridge holding back reports of Basque resistance.

ONE PRACTICAL QUESTION

One immediate effect of Mr. Crook's statement at Stettler is to raise the question of what prospect there is of Mr. Low and Mr. Maynard getting the financial help they have gone to Ottawa to seek. As far as I can see, there is no real agreement with the federal Government, and thereby made it almost impossible to get financial aid last December. What has been done in the meantime to put matters on a better footing? And who broke the agreement and how?

Another flock of birds fall due on June 1, amounting to \$1,500,000. The province has not the money. Unless it can be borrowed at Ottawa, there will have to be another loan. Has anything been done to meet this need?

And what about the highway-building program for the present summer, for which Mr. Fellow hopes to get Dominion contributions amounting to \$1,000,000?

In the fall, the agreement of last year was broken, the public have not been informed.

Apparently the breach of faith, or understanding, was serious enough to make Mr. Dunning unwilling to risk his future on the basis of the revenue. Unless that difference has been bridged, the passage of time is likely to have made him less, not more, willing to advance money for the present year's needs.

ALBERTA LAGS

Others, who have to draw their conclusions as to the real cause of the slow Social Credit party from which is said by insiders, saw the difficulty that the interpreters differ widely in their explanations of the cause and purpose of the "row."

Then Mrs. Gravelle, one of Calgary's members, says the difference between the two wings of the party is simply one of "the manner of approach" to a Social Credit set-up. While Premier Aberhart, speaking at High River, is reported as saying the district had nothing to do with getting Social Credit into power.

"There's something else besides the faster introduction of Social Credit behind this," he told his hearers. With the party cleavage, as such, only Social Crediters are directly concerned. But with the consequences which will be given to all, even one in the province will be concerned. And everyone is sharing the present results of the uncertainty that has come to prevail as to the future.

Alberta differs from the other provinces in that in while they are boasting of the headway they are making toward recovery, conditions in this province remain much as they were before the depression began to life. There is a lack of confidence in business and lack of investment, in turn due to an absence of confidence as to future policies in regard to taxation, regulation, and other operating conditions.

Outsiders and Social Creditors have common ground to hope that when the legislature resumes something will transpire to dispel this atmosphere of doubt, re-create a sense of security, and thus give Alberta a chance to move forward to better times along with the other provinces.

UP TO THE LEGISLATURE

Mr. Charles Crook has given to the executive of the Alberta Legislature the detailed reasons which led him to resign from the province. He did not say he was untrue, he says, that poor health compelled him to resign. His resignation was accepted, and his health considerations played a part in his decision, but only a part.

The other reasons he sets out leave something to be desired. That he resigned would not have been much delayed had his health been good and private affairs prospered.

The position, he explains, had become "intolerable" to him because that seemed the only sensible thing to do.

What the late provincial treasurer has to say about the proposals of his colleagues to use the sinking funds in ways never contemplated when the law was framed, is news to the public. So far as the members can make out, the real work agreement with the Dominion Government was not kept, and because it was not kept it became almost impossible to obtain the urgently needed assistance from Ottawa.

There are many of us who are shocked, set out in most direct terms by the man who was at the time answerable for the finances of the province. Obviously they call for investigation, prompt and searching. Such investigation only the Legislature can undertake, and the real responsibility that when the members reconvene they will not at once proceed to look into all the circumstances of the events cited.

In the meantime a measure of restraint is

exercised by the public in coming to final conclusion, and to move no more than fair to all concerned, and to those indicated by regard for the interests of the province. The legislature is the place, and the only place, where such allegations can be threshed out in the light of complete information, and where the power resides to take what action may be appropriate when the discussion is ended.

END THE FARCE

Having told his constituents why he quit the cabinet, the former provincial treasurer invites them to pass judgment on his motives. If they are not as he claims, he will waive the protection afforded by the nullifying clauses of what is known as the Recall Act, and will resign if 40 percent of the electors say they want him to. Otherwise he will cross the floor of the legislature and be a statutory fraud; born of a pretended—and wholly pretended—regard for popular rights.

It was never meant that any member of the legislature should be unseated under these measures. It was so framed that it is primarily important that the electors be under the terms of the Act is imperative. It was meant to be independent of a legislature that can be easily overthrown.

The cause of the rift aside—there isn't any doubt about what Mr. Crook thinks of the Recall Act, and little room to doubt that the public think substantially the same thing: The Act is imperative. It was meant to be independent of a legislature that can be easily overthrown.

HAVE YOU INDIGESTION, GAS?

YOU never feel if you eat a large meal strong to distress you. You feel stomach, indigestion, gas and bloating. The blood is too passive and will not move. You feel like a stone. I helped my friends, had a good result. I am now well again. I am not fit again at all. I am not fit again at all. Dr. Farn's Golden Medical Discovery and I fit again. New size 8. See.

Exercise Best Method Of Keeping Slim, Fit

By GLADYS GLAD
In the year 1928, Mrs. Edward Justice's wife, Theodore, passed practically all her time in her bath. Theodore, it seems, had the idea that continuous bathing would keep her plumpness and heighten her charms.

In this age of streamline figures, however, the desire is to decrease, rather than increase, one's plumpness. Heavy thighs or hips are not likely to fit into the modern fashion picture. Thus, modern girls utilize their time in the bath, not only for weight-reducing purposes, but also in conjunction with the time spent in breaking up fat tissue and reducing the excess adipose.

Young girls spend the greater part of their time in the ocean, and then step into your weight-reducing bath. There is no new creation on the market designed just for weight-reduction purposes, and it is used in conjunction with the time spent in breaking up fat tissue and reducing the excess adipose.

Massage is another effective agent for reducing. Massage, however, takes off inches, rather than pounds, so it breaks up fatty tissue locally. It is used to break up fatty tissue.

Massage as a means of reduction, of course, always has been administered by an efficient masseuse.

For there is too much danger that the massage will be applied to the elastic skin around the massaged parts and cause it to become loose and flabby. This should be done scientifically, with full knowledge of muscle and nerve location.

However, there is one method of massage which helps to reduce weight and yet can be performed by an average woman without any detrimental effects. It is a method that

is used by quite a number of screen stars and it involves merely the use of an ordinary coarse Turkish towel. A large Turkish towel should be folded lengthwise and then it should be placed around the waist of the body that you desire to reduce, such as the waist, abdomen, hips, etc. The towel should be pulled rapidly back and forth.

Exercise is also essential to keep the body in trim and aid in the reduction of weight. The following are effective:

Stand in a standing position, reach down and touch the floor with one hand, stretch out the other arm and touch the floor on the opposite side. This reduces hips and increases suppleness and balance.

Sit on the floor legs together.

Then bend forward and touch the floor with knees at the same time stretching your arms to touch the floor in back.

"Did it for his own good, Tommy, but maybe we better make ourself scarce."

ANSWERS TO QUERIES

COUNTRIES
Ellen thinks that a soft peach shade of powder, soft orange rouge,

DOROTHY DIX Says:

DEAR MISS DIX—Three months ago I came to this city as a bride from another State. An after stranger. My husband is a very reserved type, and I have not been able to get him to talk about his business corporation and has many associates whom he likes very much and who like him in return. Most of these men are married, yet none of them seem to be interested in making social contacts with me. I am unable to make any social contacts in that way. We have been to church several times, but we go and leave and have met no one at all. My husband and I live in two separate houses, and the reason is that each other's society is getting under our skins. I feel that no matter how much time we can give to church, we can't have any social contacts on the program. I long for this, but I guess I am not the only one who does not know what to do about it. Can you make any suggestions on the subject?

YOUNG WIFE.

ANSWER—
If in your old home you belonged to any sort of an organization with wide affiliations, such as the Junior League, or any patriotic society, women's club or philanthropic organization, write to your present pastor and ask him to help you find a similar organization in the city to which you have moved and which is to be your home. That is one way of getting in with the kind of people you would like to know.

Another way is to join whatever church you belonged to in your old home. If you do, you will have no chance of making contact with the members. But if you unite with a church you become one of the body, and if one of the members is interested in you, he will be sure to let you know. It is difficult in making desirable acquaintances. Every church in these days has young peoples' societies and makes a great effort to draw such people to their meetings.

ANSWER—
You must have heard of the story of young brides who go to distant cities to live with their new husbands is one that could be written in tears. It is a saga of disappointment and of disillusion, or boredom and loneliness, of homesickness and of the wear and tear and go bare. Mother and wife are the ones who have the strength to fight through it; remember as long as they live as their black day.

ANSWER—
It is all such a horrible surprise to both the poor little bride and the unfortunate bridegroom. They had expected to be so happy. They had thought that their love was strong enough to stand the test of time. The young husband is cut to the quick because his society is not enough for his wife and she is pining for Mother and the girls. He is not strong enough to bear it when he comes home at night and finds her a rest-eyed figure of woe instead of the smiling and joyous creature he expected her to be.

ANSWER—
He has his work to absorb his thoughts and time during the day, his friends for companionship, and he forgets that his young wife has suddenly come into his life from another state. She is a good girl, but she is not as much alone as she would be on a desert island and where she has nothing to do. At home she knew everybody and was in everything. In her new home she is alone, and she has no one to turn to. She begins to wonder that she gets so desperate for occupation and society that she almost goes crazy.

ANSWER—
In time she gets acquainted and she does adjust herself to her new life and the doors strike down roads in silence and before this happens she has written her chapter in the Book of Matrimony.

ANSWER—
I expect to be married in the afternoon very quietly. I have invited only a few relatives and friends to the wedding and reception. But I don't want to let my wedding day pass without some very simple form of refreshment I can have.

ANSWER—
Yes, indeed you will want to offer some small refreshment, no matter how small the reception. Arrange the dining table simple with a lace or satin damask cloth. Place a small, luminous fruit centerpiece at the other end of the table, and ferns or

light lipstick and dark brown eye shadow cream would blend her shadow perfectly.

Nail biting

Marie: You will have to train yourself not to bite your nails. Use your will power! A bit of time and aches applied to the fingernails will help to break you of this habit.

Hair

Mary: If your hair seems too thick, you can indeed have it thinned before the permanent. A medium bob probably would be best.

You May Go Oriental With These Recipes

By MRS. GAYNOR MADDOX
(15 servings)

Two cups shredded cooked lean pork, 2 cups shredded onion, 2 cups shredded celery, 2 cups moist broth, 1 cup dried mushrooms, 1 green pepper, 1 chicken or radishes, 1 green pepper, shredded, 4 tablespoons soy sauce (you can buy this at almost any good grocery), 2 tablespoons fat, 1 tablespoon cornstarch, 1 teaspoon salt, if needed.

Use heavy iron frying pan. Heat half the fat. Add shredded pork half of fat in pan and turn in paper and onion and cook 3 minutes. Add mushrooms, green pepper, radish, etc., and turn over. Turn over and simmer 5 minutes. Mix cornstarch and water until smooth, then stir into pan. Turn over and simmer another 10 minutes. Serve with a great bowl of rice.

SOUP.—Boil dried mushrooms in warm water 1/2 hour. Remove stems and slice fine. Fry pork, beef, onion, slice fine. Add mushrooms, green pepper, etc., and turn over. Turn over and simmer 10 minutes. Add soy sauce. Serve with a great bowl of rice.

PORK CHOP SOY SAUCE.—Dry and flaky.

If you like chop soy, here's a good recipe.

CHICKEN SOUP.—Chicken soup with thin noodles, pork and beef chop soy, Chinese rice, soup cabbage, pre-cooked ham, dried mushrooms, apple sherbet, clear tea, rice cubes.

muhi rice. That would start a long war.

PORK AND BEEF CHOP SOY
(10 servings)

One-half pound pork, sliced fine, 1/2 pound round steak, sliced fine, 1/2 pound beef, sliced fine, 1/2 pound chicken or radishes, 1 green pepper, shredded, 4 celery sticks, sliced fine, 1 cup mushrooms, sliced fine, 1/2 pound beansprouts, sliced fine, 2 tablespoons soy sauce, 2 tablespoons cornstarch, salt if needed.

Use heavy iron frying pan. Heat half the fat. Add shredded pork half of fat in pan and turn in paper and onion and cook 3 minutes. Add mushrooms, green pepper, radish, etc., and turn over. Turn over and simmer 5 minutes. Mix cornstarch and water until smooth, then stir into pan. Turn over and simmer another 10 minutes. Serve with a great bowl of rice.

LUNCHEON.—Grilled tomatoes on toast, fried eggs, ham, bread, waffles, apples, cheese, tea, milk.

DINNER.—Chicken soup with thin noodles, pork and beef chop soy, Chinese rice, soup cabbage, pre-cooked ham, dried mushrooms, apple sherbet, clear tea, rice cubes.

The Morning After Taking Carter's Little Liver Pill

along second, how to select only perfect vegetables, and third, to wash away from them. They never heard of chop soy.

Tomorrow's Menu

BREAKFAST.—Dry cereal with strawberries, brown sugar, cream, nut bread, bacon, coffee, milk.

LUNCHEON.—Grilled tomatoes on toast, fried eggs, ham, bread, waffles, apples, cheese, tea, milk.

DINNER.—Chicken soup with thin noodles, pork and beef chop soy, Chinese rice, soup cabbage, pre-cooked ham, dried mushrooms, apple sherbet, clear tea, rice cubes.

**The Show Windows of the Nation**

The merchants of Canada have played an important part in national development. They were in the vanguard of colonization; their business is the axis on which modern trade and commerce revolve.

Every merchant's progress and the value of his service to the community have depended at all times on his ability to keep prospective customers informed of the kind and quality of the goods he could supply. Advertising has been essential to the profitable conduct of his business.

The efficiency of the local daily newspapers as advertising media has been demonstrated more and more conclusively as markets have expanded

and the variety of competitive goods has increased.

Today the most successful merchants are those who advertise their products consistently and frequently in their local newspapers. They know the newspapers maintain an intimate contact with every home and that every consumer depends on his daily newspaper for reliable information concerning goods and services available.

Consequently, the advertising columns of the Canadian daily newspapers have become, in a very real sense, the show windows of the nation. They influence the purchases of more than two million families every day.

CANADIAN DAILY NEWSPAPERS

Looking Them Over

By Jack Kelly

The Next Test

Why Calgary?

Mydansky Clicks

AST week the Grads proved definitely that they can beat a big team if it is slow. The fact that the big team in question was not able to live up to its game on the roads of the smaller Edmonton girls has been settled to the satisfaction of the fans. The next question is that of whether the 1937 version of the Grads have enough speed to compete with a team that specializes on their own game of fast-breakaways.

The answer comes from the first intervarsity games which start here on April 30, the eve of the national championships. The Grads opponents will be the Wichita Thunders, a small fast club that barely missed winning the U.S. national championship. Like the series just finished, the coming one will be three-out-of-five games affair.

Edmonton fans rallied nobly in the matter of attendance on Saturday night and gave the Grads the best turn-out of cash customers that the series drew. Thanks to this fine support, the Grads were able to wind up the series on the right side of the ledger. It is no trivial matter to finance a trip here from Cleveland.

Coch Sanders had his girls up to Jasper Park on Sunday to see the famed beauty of the mountains. They will return through Edmonton today, but will not stop off.

There's Gold in Bob Feller

SFAR there is every indication that the current major league baseball season will be one of the greatest, from an attendance angle, that have ever been recorded. The sport cycle is definitely swinging back to baseball all over the United States. Thirty organized pro leagues are functioning at present, the largest number on record.

However, the most interesting development and area of interest is that there is now influxes of many of the teams and one of the biggest blurs of color is the gold-plated Bob Feller.

He was paid a bonus of \$10,000 for signing a contract when Judge Landis settled his disputed status, and he will draw \$15,000 for his season's playing. Ball clubs don't pay that kind of money for nothing. This season Feller represents a \$25,000 investment—but the American league figures he will net is \$80,000. He is even a greater box office attraction than the immortal Babe Ruth.

Since 1922, when Jim J. Bradley has blown around \$300,000 on the Cleveland Indians, it has been that young Feller will bring it all back to him this season alone. They have slotted this teen-age sensation to pitch only on days when he has a good chance to fill the Yankee Stadium. Present plans nominate him to hurl on four Sundays and three holidays at home. His spots have also been picked with care for road trips. He is due to go the round four times in Yankee Stadium.

What About Saskatoon?

OVER the week-end, Cenc Duncan, president of the Canadian Amateur Hockey association, intimated that the Allan and Memorial cup games will be given to Calgary and Toronto again next spring, as they were in the last two seasons.

On the face of it, this looks like fairly sound business sense, but actually it is not quite fair. This year Saskatoon went to the expense of building a modern arena with artificial ice. If the Allan cup games are in the west, then Saskatoon should get them. Calgry got the games this year in appreciation of its enterprise in putting in artificial ice—and reports are that the gate put the Calgry company in the clear.

Actually, Saskatoon is entitled to get this series next year on the same line of reasoning. Saskatoon has perhaps even more hook-emmed than Alberta and an Allan cup playoff in the Hub City should put just as well as in Calgry. It would seem sensible to keep the final junior in the east. Down in Toronto and Montreal the fans see National league hockey and senior so does not excite them very much. On the other hand, the public has an amount of novelty about it that draws even seasoned N.H.L. customers.

Mydansky at Danville

IATIMER "LEFTY" MYDANSKY, the big port-pledged pitcher who was with Portland last year, is now back in the Danville of the Danville of Virginia according to reports. He was signed by the Davis last fall to the Boston Red Sox and they sent him to Danville for some time.

This is further proof that we have a lot of good major league prospects running loose in Alberta baseball. The only reason none of them have gone up before this is that no scouts were working through this section. While Davis is a good place to go to, the Red Sox are not. They are not sure of getting a change over. The Dick Speers has been made available. Sunday afternoon he had over 20 players going through their paces and among them there are a number of smart looking prospects.

ELLER'S ARM ALL RIGHT SAYS TEAM MANAGER

TENNIS TOURNAMENT

Montreal, April 26.—Bob Eller's pitching arm was "all right" yesterday, according to Steve O'Neil, Canadian Indians.

"Million dollar" arm—object of all minor league managers for players—was still after the 10th and 11th strike-out artist disclosed to O'Neil. The Indians' manager will not delay Eller's return to the game, O'Neil said.

Eller, 26, won Saturday's game after fanning 11 Brows in six innings, for an average inning record of 1.67. Eller, 26, last year, when he set a new league strikeout record of 17 against the Indians.

Away to a bad first inning in which he allowed two hits and walked two, he got to Louis the four runs by which it was 4-2. Eller did not tell "Nellie" that at the end of the game that he had hurt his arm in throwing a curve to Bill Kickerbocker, headoff man in the first.

FLO HUMBLE SETS UNOFFICIAL RECORD

MONTREAL, April 26.—Florence Jim set a new unofficial Canadian record yesterday in the Dame De Grace aquatic championships Saturday night winning the 50-metre butterfly in 27.1 seconds flat. Club officials said the mark would probably go unacknowledged because Jim, instead of the third required by the Canadian Amateur Swimming Association, was on hand.

Prizes Century-Old Golf Ball

Golf history goes back centuries as does the history of the implements used in the royal and ancient game, or metal tools as it is sometimes called. Mr. Wm. Forbes of Edinburgh, after his pricing his possessions one of the early relics of the game. It is a golf ball of the type used about 100 years ago and has been found in a casket in the crypt of St. Paul's Cathedral, London, the owner, on the Bruntsfield Links at Edinburgh. Mr. Forbes, a member of the Royal and Ancient, says it is the oldest golf ball ever found in situ with those in use today. It is much lighter in weight and smaller as durable. It is studded with feathers, bound to-

gether with a thin layer of elastic, and has an outer cover of goat skin. The cover is in an excellent condition and the ball is in perfect condition, according to Mr. Forbes, this type of ball was manufactured in Holland. The relic was originally owned by Sir George Munro, a member of the Royal and Ancient, and was given to the owner, Mr. Forbes, by the Royal and Ancient.

"Chuck says when he grows up, he's going to be the greatest stunt flyer in the world."

"Umm—I'd rather be the oldest one."

Curious World —By William Ferguson

By observing the pole star it is possible to tell exactly at what latitudes you are. This discovery was a great help to navigators of early times, although they still had no way of telling how far east or west they were, and when clouds obliterated the stars, they were indeed helpless.

NEXT: What area do the Everglades of Florida cover?

THRONGS HEAR DR. OSBORN'S VALEDICTORY

Church Filled Long Before Starting Time Of Service

Impressive tribute to Dr. A. R. Osborn's ministry at First Presbyterian Church was given Sunday when nearly 1,000 congregants gathered to hear the eloquent pastor deliver his two valedictory sermons. Long before the service began the huge church auditorium was filled. Cars lined adjacent streets for long distances, others people were unable to obtain parking. Dr. Osborn, ending a five year ministry, spoke of his life, his work "When Way Divides," and in the evening, "Quid Vadis—Whither Goest Thou?"

TO MAKE CHOICE

"There are two ways of life—people," said the preacher, "and all men are called upon to make the choice between them. One is the way of righteousness and eternal life, the other that of pleasure and greed and gain."

"I may illustrate the truth of this by citing three stories, great parables of the Bible. There is one story which I would like to tell you, another which read in its entirety, and so to the moral and consequence of the tale and its lesson."

"It is the story of Lot's choice. Such a choice comes to every nation at some time, and in the manner in which the grave decision is taken may mould the ultimate destiny of the nation. It is better to choose to climb the rugged ascents of the hill of enterprise than to follow the paths of self-same and sin."

DIVIDED KINGDOM

The next parable concerns itself with the kingdom in which the Kingdom of Solomon and David was divided. Solomon left the foundation of the empire to himself. But the magnificence of that monarch, who was foolish in some ways as well as wise, led him to believe others carried it with equal success.

"In order to provide labor for his trade and commerce men were made slaves. We see of God's creation that they never shall be slaves. Solomons' son, King Rehoboam, was deaf, dumb, and blind. He had no family man. It is also just as clear that he had succeeded."

Then there is the parable of the two princesses. It is interesting where the two princesses spent the greater part of their early lives, and though to the casual observer he may be of a reserved and somewhat quiet nature, he is in fact very much a playmate and a good fellow to "rowdy" girls. He is the King to thousands of his home-loving subjects.

SPIRITUAL POWER

"Out of this division of the physical kingdom, came the spiritual, a new race of men, as the members of this great Hebrew race became to work the Kingdom of God."

My third parable is from the New Testament. Peter and Paul disputed as to whether the Gentiles should enter the Hebrew laws or break them, and let go the universal religion."

"Paul won. Paul had to win, in order that world religion might be born."

CHOOSING LEADERS

—The most important question facing the world today is whether it will wisely choose in selecting its leaders. The most sophisticated of men see to cast off some centralization of power, some vesting of authority in a supreme person, alone."

"Shall we have in the present? Shall we have in the future? In the Dominion? We have always believed in democracy. Let us hope that we do see our answer; but let us do in the affirmative. What will it be in the future?"

"Stanley Baldwin says that a dictatorship flourishes like a tree, but nothing grows under the tree. The dictator has no personal popularity." "Mrs. J. S. Clark, this last summer, warning Democracy without the fear of God and obedience to the Church, to succeed. I pray that we will have the right sense of God and the path we follow will be of light and salvation."

ORDER CHANGES

"We are in a period of change," Dr. Osborn stressed, "and a lot changes are coming. It may be that present form of government will indeed alter alternatives, but the climate will change too. Possibly there will find a new horizon."

"But of one thing be sure. The creative spirit of God, which is everywhere, will bring out of the very raw material which is given us, wisdom and truth. The future will be glorious. We must depend upon the path we take. God grants us all the grace and power to choose the right."

Final honor will be granted Dr. Osborn at a special social meeting at First Presbyterian Church Monday at 8 p.m.

Sit Strike Ends; Ford Assembly Plant Re-Opens

RICHMOND, Cal., April 26.—Union and company officials Saturday announced an agreement to re-open the plant, which had been closed since last Friday by a short sit-down strike.

Edmund C. Thompson, president of the United Automobile Workers who flew here from Detroit said the company had agreed to settle the dispute against any man for union affiliation and that it would recognize union representation.

Claude Bullock, plant superintendent, confirmed the agreement and said negotiations would be resumed Monday.

THE Royal Road TO THE CORONATION

King George is a Fond and Attentive Father.

To those who know the royal family intimately, it is amazing that King George, with the never-ending duties that his position has always imposed upon him, has found time to be a fond and attentive father. It is also just as clear that he has succeeded.

King George's fondness especially where the two princesses spent the greater part of their early lives, and though to the casual observer he may be of a reserved and somewhat quiet nature, he is in fact very much a playmate and a good fellow to "rowdy" girls.

He is the King to thousands of his home-loving subjects.

Beautiful Bride Asks Friends to Cocktail-Suicide

NEW YORK, April 26.—A baffling fabric of questions answered only by silence forced a veil of mystery today around the death of Helen James, beautiful actress, who was found dead as guests at a cocktail party arranged for her most unusual one ever held at New York.

No explanation for her act was forthcoming from the source who had invited her to the party, a wealthy Avenue A resident. Saturday afternoon, when arrival at her Park Avenue apartment was expected, her celebrated maid, Dorothy Dixer, found the shapeless brown-haired girl dead from above

BRIDE OF MONTH

These questions confronted her friends:

Was she the bride of Turkish King Mustapha, or did her secret decorator kill herself?

Were the two copies of this letter immediately and mail them to the police? Or did she write, "I will not recognize your handwriting." "Do not talk about me." "I am a victim of an elaborately staged demon?"

Why, if they were not, did she insist on getting in the midst of preparations to commit suicide?

RED PLAT

Women have been since last summer Broadway six years ago as star of the Communist propaganda play, "Red China."

Was there any connection between the two copies of this letter, which a youthful post-adolescent who drank a glass of poison and died at home at the age of 16?

Surviving also are four brothers, well-known in Canadian publishing circles. W. J. Southam, a director of the Hamilton Spectator, F. N. Southam, managing director of the Canadian Publishing Company, Limited, Montreal, and Wilson Southam, president and vice-president and managing editor respectively of the Ottawa Citizen.

Final honor will be granted Dr. Osborn at a special social meeting at First Presbyterian Church Monday at 8 p.m.

RED CHEVRONS STAGE ANNUAL YPRES DINNER

All First Division Units and Imperials Represented

Here

Attended by close to 100 members and their guests, the Red Cross Club of the Ypres Battalion presented in the King Edward hotel Saturday night went off in a "blaze of glory."

Every unit in the First Canadian Division, and all the Canadian branches of the Service, was represented, as was the Navy and Air Force, and the Red Cross, Imperial decorations, and medals, and the club's colors draped behind the head table, were presented.

An imposing picture.

FOUNDED 20 YEARS AGO

At the head table a representative of each corps was seated, A. E. Nightingale, who founded the club 20 years ago. His honor the Queen Mother, Mrs. J. C. Bowen, who had a previous engagement, came later in the evening. General the Hon. W. A. Griesbach, C.H., C.M.G., D.S.O., R.C.A.F., Lt.-Col. W. M. Garrison, commanding and His Honour's secretary, Capt. C. V. Dacre, were also present.

Chief Petty Officer H. H. Hunter had a great reception, bearing in mind that he was the turned soldier, lieutenant-governor.

Others at the head table included: His Worship Major J. J. Clarke, K.C., Chief A. G. Shute, Lt.-Col. P. E. MacLellan, Capt. G. L. Simms, Lt.-Col. W. F. W. Carson, U.E.L., Lt.-Col. P. E. Brown, Captain C. M. K. McLean, Captain C. H. Petty Officer A. Cross, incoming president, and Godfrey Henderson, outgoing president.

SIGNIFICANT DATE

Lt.-Col. "Petie" Anderson came in for a special demonstration. The date, April 26, has special significance to this popular Edmonton old-timer. It is his birth date, and he was born in 1917, the year of the 22nd anniversary of the battle of Vimy Ridge. His subsequent career in the Canadian forces was full naval uniform, his major is cheerfully attactive to the waist.

Jack Davis, who was captain of the ship when he was captured, but was consigned by all to the bottom of the North Sea. Another interesting personality present was Jack Davis, who was captured and who also subsequently escaped.

Pipe Major Henry Laing and his pipe band, the Pipe Band of the Royal Engineers, followed by the band of the Royal Canadian Guards, and the band of the Royal Canadian Mounted Police.

GUESTS INTRODUCED

After dinner the retiring president, Mr. J. J. Clarke, introduced and thanked the members for support and good-will offered him during his term of office, and introduced the new president, Chief Petty Officer Cross—and immediately the gathering took on a nautical atmosphere.

With a most complimentary speech, Mr. Cross introduced the new Nightingale with the past-president's jewel, together with the Queen Mother's jewel. He then took charge of the program.

Short speeches were made by His Worship Major J. J. Clarke, the Attorney-General, Mr. Hullig, who appeared to be thoroughly enjoyed by the audience. His Worship Mayor, who after speaking of his recent sea voyage, was invited to the R.C.N.V.R. headquarters to learn a few nautical terms, and when he was given the appointment of His Honour, he was a precedent for the first time in the history of this high office, nominating a few of those present, including His Honour's secretary, Captain C. V. Dacre, and Chief Shute, who has never missed a Red Chevron banquet. Col. Anderson greeted with special friendliness, being very popular with Red Chevrons.

Mr. C. M. K. McLean, president of the Canadian Legion and Godfrey Henderson, M. McLaren spoke on the occasion.

FIRST GAS ATTACK

Many of those present took part in the first gas attack at Ypres 20 years ago, and the survivors, though failing in spite of the passing years, before the dinner a short ceremony was held in memory of those who fell. Canon Cross recited a prayer and A. E. Nightingale placed the Red Chevron wreath.

The program was particularly enjoyed. Community singing under Jack Southam, and the band of the Royal Engineers, with Windsor Barker as accompanist, gave some rousing entertainment.

A number of outstanding speakers, including His Worship Mayor, Alexander Griesbach, and Frank Carson, Mayor of Edmonton, spoke on the occasion.

MEMORIAL SERVICE

Wreaths were laid in a ciliated ditch. Grey with white toe, and tan. One large full length wreath, black and tan, 44 inches long. The BASEMENT STORE PAIR. 49c

For the Modern Picnic..

The modern ware that defies breaking, and is amazingly light, beetle-proof, of course. The new collection of this amazing stuff show all sorts of ingenious pieces—cups that fit into one another, another salt-and-pepper set that screws together, we mustard cups... oh, no ends of containers. And in such gay, picnic colors, too.
